

Battery-Free Absolute Sensor Equipped

α STEP AZ Series

EtherNet/IP™

EtherCAT Drive Protocol

PROFINET

The **AZ** Series combines solutions for all the essential elements of position control in its compact housing. The existing product range has been expanded with network-compatible drivers.

230 VAC Type
List Price 520,00 €

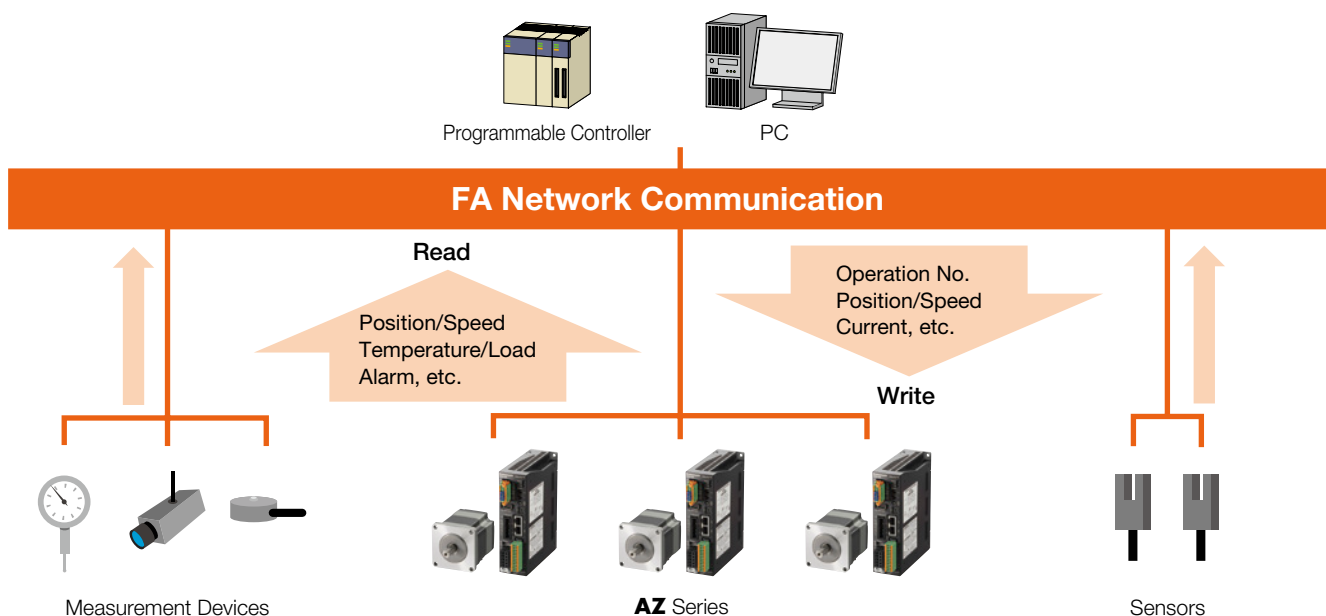

24/48 VDC Type
List Price 400,00 €

Direct Connection to a Host Control Device

Real-Time Sharing of Status Changes and Commands

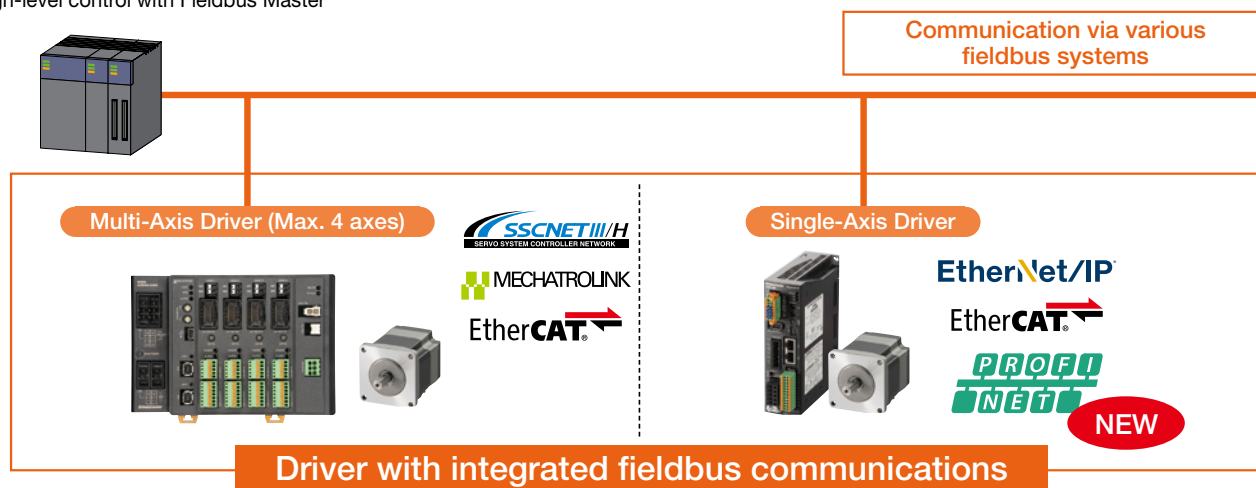

The host control device sends commands to the motor according to the status of each device, controlling and regulating the entire system. Real time monitoring of the motor's status can be sent to the host control device via fieldbus.

Access all Motions Via Fieldbus

Network Direct Connection Drivers for Increased Functionality

High-level control with Fieldbus Master

High-Speed Communication for Rapid Movement Requirements

Multiple motors connected via fieldbus operate synchronously, precisely, and reliably.
